- Urdu(Native)

PROFILE

Backend Developer with expertise in designing and developing scalable web applications. Proficient in MongoDB, Express.js, basics of React.js, and Node.js, with hands-on experience in backend development and API integration. Strong problem-solving skills, excellent communication, and a continuous learner dedicated to advancing in software engineering.

WORK EXPERIENCE

System Sphere   JAN 2025-MARCH 2025
Backend Developer

- Develop and maintain high-performance web applications using the MERN stack.
- Design and implement RESTful APIs for smooth frontend-backend communication.
- Ensure security best practices, authentication, authorization, and database optimization.

Endless Invo   OCT 2024-DEC 2024
Junior Web Developer

- Built responsive user interfaces using HTML, CSS, JavaScript, and React.js, ensuring cross-browser compatibility and mobile optimization.
- Assisted in integrating frontend components with backend APIs, contributing to smooth data flow and dynamic content rendering.

Webwrite Inc.   June 2024 -SEP 2024
Backend Intern

- Gained expertise in backend development using Node.js, Express.js, and MongoDB.
- Assisted in API development and optimized server-side performance.
- Strengthened problem-solving and communication skills through teamwork.

PROJECTS

LimoArc

- A website and app for booking luxury cars
- Developed and optimized backend architecture using Node.js, Express.js, and MongoDB.

Onyx Inspection

- A project for inspection of submarines, oil, food, etc.
- Engineered backend systems to process and analyze inspection data efficiently.

GiftShare

- A web app for sending and receiving gifts through personalized digital platforms
- Developed robust backend services using Node.js and Express.js, with MongoDB for efficient data management of users, gifts, and delivery preferences.
- Integrated third-party APIs for secure payment processing and real-time notifications.
